

TABLE OF CONTENTS Volume II

Preface and Introduction	ix
How to Use This Volume	xvii
Flow Chart	xxii

“A” Learning Progression. NATURE OF MATTER **1**

For Lessons A-1 to A-10, see “Building Foundations of Scientific Understanding,” Vol. I

Lesson A-11. Atomic/Molecular Motion I: Evidence From Brownian Motion and Diffusion	3
Lesson A-12. Atomic/Molecular Motion II: Relationship to Temperature	15
Lesson A-13. Atomic/Molecular Motion III: Heat and Pressure	29
Lesson A-14. Concepts of Chemistry I: Elements and Compounds	43
Lesson A-15. Will It Sink or Float? Concept of Density and Its Measurement	57
Lesson A-16. How Metal Ships Float and Making a Hydrometer	71
Lesson A-17. Heat, Volume and Density	81
Lesson A-18. Convection Currents: Observation and Interpretation	95

“B” Learning Progression. LIFE SCIENCE **103**

For Lessons B-1 to B-12, see “Building Foundations of Scientific Understanding,” Vol. I

Lesson B-13. Cells I: Microscopes, Observations of Tissues, and the Cell Theory	105
Lesson B-14. Cells II: Cell Growth, Division, and Differentiation	119
Lesson B-15. Cells III: Integrating Cells and Whole-Body Functions	135
Lesson B-16. Fungi and Bacteria I: What They Are and Their Role as Decomposers in Nature	149
Lesson B-17. Fungi and Bacteria II: Decomposers Versus Food Storage and Preservation; Commercial Uses of Fungi and Bacteria	165

Lesson B-18. Fungi and Bacteria III: Decomposers Versus Disease and Health 177	
Lesson B-19. Microscopic Organisms I: Their Multitude and Diversity	195
Lesson B-20. Microscopic Organisms II: Single-Celled Organisms; Kingdom Protista	205
Lesson B-21. The Life of Plants I: Growing Plants for Fun, Food, and Learning	217
Lesson B-22. The Life of Plants II: How a Plant Grows Its Parts	233
“C” Learning Progression. PHYSICAL SCIENCE	249
For Lessons C-1 to C-7, see “Building Foundations of Scientific Understanding,” Vol. I	
Lesson C-8. How Things Fly	251
Lesson C-9. Center of Gravity, Balance, and Wobbling Wheels	263
Lesson C-10. Movement Energy and Momentum	277
Lesson C-11. Mechanics I. Levers and Discovery of the Underlying Principle	289
Lesson C-12. Mechanics II. Inclined Planes, Pulleys, Gears, and Hydraulic Lifts	303
Lesson C-13. Electricity I: Electric Circuits, Switches, Conductors and Non-Conductors	321
Lesson C-13A. Electricity IA: Static Electricity, Sparks, and Lightning	335
Lesson C-14. Electricity II: Parallel and Series Circuits, Fuses, Short Circuits, Fuses and Ground Wires	347
Lesson C-15. Light I: Basics of Light and Seeing	361
“D” Learning Progression. EARTH AND SPACE SCIENCE	381
For Lessons D-1 to D-8, see “Building Foundations of Scientific Understanding,” Vol. I	
Lesson D-9. Cause of Seasonal Changes	383

Lesson D-10. The Water Cycle and Its Ramifications	397
Lesson D-11. Earthquakes, Volcanoes, and Movements of Tectonic Plates	415
Lesson D-12. Mapping the Earth: Latitude and Longitude	427
Lesson D-13. Climate and Weather I: Wet Tropics and Dry Deserts	437

Appendices

451

Appendix 1. Additional Equipment Required	451
Appendix 2. Small Group Discussion and Baloney Detection	455
Appendix 3. Notebooks and Writing	461
Appendix 4. Drawing Graphs	461
Appendix 5. Dos and Don'ts Regarding Collecting Living Things	462
