

Table of Contents

Volume II, 2nd ed.

Preface and Introduction	1
Acknowledgements	6
Flow Charts	7
LEARNING PROGRESSION “A.” NATURE OF MATTER	11
For Lessons A-1 to A-10, see Building Foundations of Scientific Understanding, Vol. 1	
Lesson A-11. Atomic/Molecular Motion I: Evidence From Brownian Motion and Diffusion	13
Lesson A-12. Atomic/Molecular Motion II: Relationship to Temperature	24
Lesson A-13. Atomic/Molecular Motion III: The Temperature-Pressure-Volume Relationship	40
Lesson A-14. Concepts of Chemistry I: Elements and Compounds	54
Lesson A-15. Will It Sink or Float? Concept of Density and Its Measurement	67
Lesson A-16. How Metal Ships Float and Making a Hydrometer	78
Lesson A-17. Heat, Volume and Density	87
Lesson A-18. Convection Currents: Observation and Interpretation	99
LEARNING PROGRESSION “B.” LIFE SCIENCE	107
For Lessons B-1 to B-12, see Building Foundations of Scientific Understanding, Vol. I, 2nd ed.	
Lesson B-13. Cells I: Microscopes, Observations of Tissues, and the Cell Theory	109
Lesson B-14. Cells II: Cell Growth, Division, Differentiation, and Introduction to Reproduction	120

Lesson B-15. Cells III: Integrating Cells and Whole-Body Functions	135
Lesson B-16. Fungi and Bacteria I: What They Are and Their Role as Decomposers in Nature (Introduction to Nature’s Great Cycle)	146
Lesson B-17. Fungi and Bacteria II: Decomposers Versus Food Storage and Preservation; Commercial Uses of Fungi and Bacteria	159
Lesson B-18. Fungi and Bacteria III: Decomposers Versus Disease and Health	169
Lesson B-19. Microscopic Organisms I: Their Multitude and Diversity	185
Lesson B-20. Microscopic Organisms II: Single-Celled Organisms; Kingdom Protista	194
Lesson B-21. The Life of Plants I: Growing Plants for Fun, Food, and Learning	203
Lesson B-22. The Life of Plants II: How a Plant Grows Its Parts	219
LEARNING PROGRESSION “C”: PHYSICAL SCIENCE, ENGINEERING, AND TECHNOLOGY	233
For Lessons C-1 to C-7, see Building Foundations of Scientific Understanding, Vol. I, 2nd ed.	
Lesson C-8. How Things Fly	235
Lesson C-9. Center of Gravity, Balance, and Wobbling Wheels	245
Lesson C-10. Energy in Motion: Momentum and Waves	255
Lesson C-11. Mechanics I: Levers and Discovery of the Underlying Principle	269
Lesson C-12. Mechanics II. Inclined Planes, Pulleys, Gears, and Hydraulic Lifts	279
Lesson C-13. Electricity I: Electric Circuits, Switches, Conductors and Non-Conductors	293
Lesson C-13A. Electricity IA: Static Electricity, Sparks, and Lightning	306

Lesson C-14. Electricity II: Parallel and Series Circuits, Short Circuits, Fuses, and Ground Wires	315
Lesson C-15. Light I: Basics of Light and Seeing	326
LEARNING PROGRESSION “D”: EARTH AND SPACE SCIENCE	341
For Lessons D-1 to D-8, see “Building Foundations of Scientific Understanding, Vol. I, 2nd ed.	
Lesson D-9. Cause and Effects of Seasonal Changes	343
Lesson D-10. The Water Cycle and Its Ramifications	353
Lesson D-11. Earthquakes, Volcanoes, and Movements of Tectonic Plates	366
Lesson D-11A. Uncovering the Earth’s Past	377
Lesson D-12. Mapping the Earth: Latitude and Longitude	390
Lesson D-13. Climate and Weather I: Wet Tropics and Dry Deserts	399
Appendices	413
Appendix 1. Baloney Detection Kit	413
Appendix 2. BFSU in Relation to NGSS	419
Matrix A. NGSS and BFSU Lessons Applying to each	420
Matrix B. BFSU Lessons and NGSS that Each Supports	428
Appendix 3. NoteBooks, Writing, Reading, and Synergy with Common Core Standards for Literacy	435
Appendix 4. Drawing Graphs	436
Appendix 5. Specifications for Microscope and Balance	437
